Anti-Rust Paper Rolls

Corrosion inhibiting papers are a clean and convenient way of wrapping metal products to prevent the onset of corrosion. These papers are performance tested and approved to the German TL 8135-0002 standard.

VCI Paper: Volatile Corrosion Inhibitor (VCI) paper. VCI chemicals volatilize, attach themselves to metal and form a protective layer just a few molecules thick. This layer prevents humidity, salt, dirt from depositing on the metal and causing corrosion. For use with ferrous metals only.

MPI Paper:

Superior multi-purpose corrosion inhibitor paper for use as a wrapper for all metals, e.g. ground rollers, or as an interleave for packing light components.
