## Stretch Wrap

Avon Q-Lite the innovative pre-stretched film makes wrapping pallets easier and more efficient. There is no need to stretch the film to get maximum load holding. Operators will appreciate the ease with which Q-Lite can be applied. Q-Lite allows you to reduce waste, as the characteristics of the film mean that lost and broken ends (edge hang-up) are virtually eliminated and the film can be used to the very end of the roll.

## Machine Stretch Film

Cast film is extruded as a flat sheet, resulting in higher outputs than blown film extrusion. Cast film predominates in machine applications and generally has superior optical properties of clarity and gloss.

### Standard Cast Film

Will stretch in excess of 140%. For use on standard wrapping machines.

### Super Power Pre-Stretch Film

Will stretch in excess of 250% when used on a power pre-stretch machine.
