

Head Protection

Offers protection from falling impact hazards such as bricks, tools and materials. It is recommended that helmets are replaced at a maximum interval of five years. This interval should be greatly reduced for helmets that have been exposed to extensive wear and tear, left in the sun, written on or have had any labels stuck on that do not have the correct adhesive. Helmets that have been damaged i.e. cut or scratched should be replaced immediately. Helmets should be regularly inspected for damage.

TUFFSAFE

Head Protection System

NEW

Personal Protection Equipment

Professional Safety Helmets

Lightweight, stable and comfortable fit with less leverage on the head and a lower centre of gravity, making it feel even lighter than it is. Short peak for enhanced visibility. The new DeFormaTec™ system reacts ultra quickly to absorb impact energy before it reaches the wearer. The helmet shell is a result of analysis of thousands of helmet crash tests. It is based on the same principle as a rigid yet flexible Formula 1 chassis, reacting on impact by partial deformation to absorb the shock. Fitted with a 4-point adjustable comfort webbing harness and absorbent soft leather sweatband. Conform to **EN 397: 1996**.

Colour	Weight each	Order Code RTL-957	Price/1 TB
White	325g	-0400K	485.00
Yellow	325g	-0420K	485.00

TUFFSAFE

Baseball Style Bump Caps

Protects the head against accidental scraping and bumping. Absorb energy from a blow by partial destruction or damage to the shell of the cap. It is fashionable, comfortable, breathable with the twin ventilation panels and protective. Reduced peak for increased upward vision. Washable. Adjustable strap to fit head size 58 to 62cm. Different colours available.

Colour	Order Code TFF-957	Price/1 TB
Navy	-1700K	773.00
Black	-1740K	773.00

Baseball Bump Caps

Protects the head against accidental scraping and bumping. Energy from an impact is absorbed and dissipated by partial destruction or damage to the under shell of the cap. It is fashionable, lightweight and breathable. Reduced peak for increased upward vision, washable. Adjustable strap to fit head size 54 to 59cm. Conforms to: **EN812:2012**.
